

Case Study | Construction

Customer:
ENGINEERING &
CONSTRUCTION COMPANY

Industry:
Construction & Project
Management

Size:
160+ Employees (1,200+ Skilled
and Semi-skilled workers)

Country:
UAE

Products and services:
Microsoft Dynamics 365
Finance

Situation
The Company is a leading engineering and construction company, offering comprehensive construction services via traditional or design and build procurement. The Company had challenges with considerable manual activities due to multiple, disparate systems. They also had little visibility on project's performance in the long-term.

Solution
The Company selected Dynamics 365 Finance as their ERP solution due to its capabilities and ability to handle complexity. TSC was chosen as a strategic technology and advisory partner, quickly becoming an extension of their project team. TSC also built integrations to other line-of-business systems.

Impact
Improved business insight and reporting, streamlined end-to-end business processes, and achieved economies of scale to enable growth.

Improved project management, payroll processes, resources and equipment handling, and procurement and inventory management.
